

Floral + Ornament Guide

Catholic
Cemeteries +
Crematoria

We recognise the significance of floral and ornamental tributes in honouring loved ones. This guides ensures our cemeteries remain safe, tidy, and welcoming for all visitors while ensuring grounds are maintained to a high standard.

Respect your neighbour

To respect neighboring memorials and burial sites, we permit a maximum of two (2) vases per grave or memorial. This allows families to express their grief while ensuring others are not impacted by excessive tributes.

An overflow of tributes can cause distress for nearby families. To maintain a fair and considerate space for all, items encroaching on neighboring sites will be removed.

Removal of tributes by cemetery staff

Cemetery staff routinely remove floral and ornamental tributes as part of maintenance to keep the grounds beautiful, tidy, and safe for all visitors.

While this is a sensitive task, it is necessary, as all tributes eventually wither and must be removed. Where possible, prior notice is given. Please note severe weather events may necessitate the need for removal of tributes without prior notice. We appreciate your understanding as we carry out this essential task.

General Guidelines:

Remove wrapping and rubber bands from fresh flowers before placing them in vases.

Ensure tributes do not encroach onto neighboring graves or memorial sites.

Withered tributes will be removed by staff.

Picking flowers from century gardens or planting flora is prohibited.
